### MARCAREA CORPULUI DE ILUMINAT

**X:** Autonom

**O:** Nepermanent

**B:** Controlabil de la distanță

\***60/120/180:** Autonomia nominală a corpului de iluminat (în minute)

- **DURATA DE ÎNCĂRCARE:** 24 h

- **SCHIMBAREA BATERIILOR:** Bateriile trebuie înlocuite atunci când durata lor nu e aceeași cu autonomia declarată. NOTĂ: Pentru a prelungi viața bateriilor este recomandată descărcarea completă periodică (prin deconectarea alimentării principale) cel puțin o dată la 10 săptămâni.
